Housekeeping Reminders

- This is a Zoom webinar

- All webinar participants are automatically muted, and your video is not displayed

- If you would like to ask the presenters a question, please use the **Q&A** function on the task bar

- Use the **chat** feature to introduce yourself – name, organization and location, share resources, etc.

- If you have any questions following the webinar, please reach out to contact@civitasforhealth.org

Agenda

- **Welcome and Civitas Updates** – *Lisa Bari*, Chief Executive Officer and *Jolie Ritzo*, Senior Director of Network Engagement

- **Workgroups and Councils Update** – *Jolie Ritzo*

- **Civitas Member News** – *Lisa Bari and Jolie Ritzo*

- **Spotlight Presentation** – Promising Practices on Consent Management – Robby Franceschini, *BluePath Health/Connecting for Better Health* and Daniel Stein, *Stewards of Change Institute*

Civitas Updates

What Has Civitas Been Up To?

Our team has been busy travelling and presenting at industry events!
- AHIP 2023
- UCLA Data Equity Center Meeting
- InterSystems Global Health Summit
- WEDI Annual Spring Conference
- Public Health Techxpo and Futures Forum

Civitas Member Event

Join WEDI in Chicago, IL or on the internet as they spotlight innovators and implementers and their early adoption of prior authorization and attachment tools and applications. The event provides access to small group breakouts to discuss implementation plans and how WEDI can help your organizations proceed with implementation guidance.

The 2023 Summer Forum will be 2 days of education and discussion, including:

- Adopting technology and automation solutions to simplify prior authorization and attachments.

- Business strategies for implementing new prior authorization and attachments processes to improve efficiency and reduce administrative burden.

- Regulatory and policy considerations related to prior authorizations and attachments.

Use the code **WEDI23CIVITAS** for 25% off our onsite as well as virtual rates. Learn more about the forum at wedi.org

wedi 2023

SUMMER FORUM

National Exchange Network Support

- HealthShare natively supports <u>all three</u> national networks:
  - eHealth Exchange
  - Carequality
  - CommonWell
- HealthShare is the technology and platform used by eHealth Exchange for the national eHX Hub
- HealthShare is the technology used by eHealth Exchange to connect to the Carequality framework
- HealthShare participates in the CommonWell connector program

Why We Actively Support Civitas

- Civitas is a key partner to InterSystems
- Longstanding relationship and long-term sponsor
- InterSystems is passionate about improving health care quality and value for our customers
- InterSystems relies on Civitas to serve as a key partner for in engagement with the interoperability community
- Civitas provides valuable insights, communication, and collaboration venues which are important to us

Why the Civitas Annual Conference is Important to InterSystems

- Cornerstone event for our community
- Largest number of members gather, network, and collaborate
- Learn important policy updates and understand the state of our community
- Venue for managing existing client relationships
- Opportunity to identify new business prospects
- Chance for us to give back and share our point of view

InterSystems Global Summit and Civitas Annual Conference: Parallels

- Both events focus on having content that supports a wide range of attendees; C-level executives, subject matter experts, and their peers

- Attendees gather to learn, share, and collaborate

- Civitas members often attend the Global Summit to learn how our tools are being used by their peers, their customers, and potential partners

- Venue to understand how technology can assist Civitas members in meeting their goals

Thank you

Workgroups and Councils Update

2024 Board Nominations

Nominations are now open through June 25, 3:00PM ET

- Eligibility – CEO/ED or other senior leader of a full member, in good standing

- Voting will open at the Civitas Annual Conference – full and affiliate members are eligible to vote

FAQs   **Nomination form**

Government Relations Update: ONC Health Data, Technology, and Interoperability Proposed Rule

- Proposes updates to the information blocking regulations that are intended to advance interoperability, improve transparency, and support the access, exchange, and use of electronic health information (EHI). The proposed changes **include updates to the Information Blocking Exceptions**.

- Civitas drafted and submitted a comment letter to ONC on June 20 with support and signatures from our member organizations.

- ONC HTI-1 Comments

Health Data Research Member Survey

- Civitas' Health Data Research workgroup has developed a survey to better understand the research capabilities of the Civitas Network

- Goal: to help members collaborate with one another on projects and help organizations and funders outside of Civitas find members to collaborate with on projects.

- We'll be sending out an email blast with the survey after this meeting. Please complete if your organization has a health data research use case!

SDOH Annual Data Survey

- Civitas' SDOH and Interoperability workgroup has been compiling responses for the Annual SDOH Data Survey.

- We currently have 27 responses to the survey – if your organization has not yet submitted a response, please take the time to fill out a submission!

- Civitas aims to compile responses throughout the summer and then close the survey by the end of August.

Civitas Member News

Member News

Spotlight Presentation: Promising Practices on Consent Management

Welcome to BluePath Health

We are a healthcare consulting firm with many years of experience across all segments of the healthcare industry, including health IT, providers and policy makers. Our team brings deep skills in strategy development, policy analysis, technology implementation, data science and communication and design to our client engagements to expand patient access, increase reimbursement, improve practice management and more.

BluePath Health honors the diversity of our clients and communities with whom we work.
We strive to be inclusive of their differing perspectives and amplify their voices as we develop strategies and programs.
We seek to build a diverse team dedicated to advancing equal access to health care.

Connecting for Better Health Coalition

Our Vision: Every Californian and their care teams have the information and insights they need to make care seamless, high quality and affordable.

@Connecting4H

Policy Priorities

- **DSA education and execution:** Promote the value of the CalHHS Data Sharing Agreement and encourage organizations to sign it

- **Funding:** Advocate for the state to dedicate continued funding for health and social services IT and ensure state agencies seek federal match when and where appropriate

- **Integration of social services data:** Develop and communicate use cases and policy recommendations that should serve as the basis for data sharing across sectors—especially lessons learned from CalAIM programs

- **DSA/P&P development:** Monitor state data sharing efforts and provide critical feedback to CalHHS and other agencies to ensure California realizes the promise of A.B. 133

Connecting for Better Health
Advancing data sharing to improve the health of all Californians

Introducing Stewards of Change Institute

The Stewards of Change Institute (SOCI) is a nonprofit organization started in 2005 with the purpose of improving the futures of the most under-resourced and under-served populations – by initiating, inspiring and advancing transformational change in health and human services systems at all levels of government, industry and nonprofits.

The National Interoperability Collaborative (NIC) is a "Community of Networks" with a mission to increase collaboration across the spectrum of programs and sectors that enhance health, safety, education, race equity and well-being by advancing information-sharing, interoperability and the use of standards-based technology. The NIC formed in 2018 with funding from the Kresge Foundation and has engaged over 1500 participants.

Project Overview

- Collaboration between BluePath Health and Stewards of Change Institute, with support from the California Health Care Foundation

- White paper to be published in summer of 2023 focused on highlighting promising consent policies and practices in the context of sharing data across health and social services sectors

- Three-part webinar event series highlighting white paper findings and recommendations, and kicking-off next steps to improve this work in the state

Connecting for Better Health
Advancing data sharing to improve the health of all Californians

Objectives for our White Paper

- Articulate the importance of consent to share information as vital for realizing the state's vision; examine the challenges, complexities and paths forward.

- Describe the current landscape of innovative efforts in California seeking to improve consent policies, practices and projects, as well as identifying the obstacles to achieving the State's ambitious goals.

- Identify important, actionable insights and promising, replicable or scalable practices.

- Offer recommendations to organizations and governmental entities at the community, county and state levels for making tangible progress to meaningfully advance consent.

Connecting for Better Health
Advancing data sharing to improve the health of all Californians

Stewards Focuses on Data Sharing Between HIPAA and Non-HIPAA Entities for Whole Person Care

Whole Person Care Model

- People generally must navigate multiple domains, systems and programs to acquire critical services and supports.
- Secure, responsible and accurate information exchange is crucial for decision making, treatment, oversight and knowledge management.
- New mind sets, models, tools and competencies are needed to work effectively across silos.
- Informed Consent (Utility) is needed to enable and streamline data sharing for whole-person care.

Connecting for Better Health
Advancing data sharing to improve the health of all Californians

Segments Requiring Some Type of Consent

Why Focus on Consent in California?

- California data sharing initiatives underway hinge on the ability of state agencies, private organizations to understand and manage for privacy and confidentiality laws and local policies across sectors
  - California Data Exchange Framework and Digital Identities Strategy
  - CalAIM 1115 waiver program
  - CalAIM ASCMI consent pilots (see next slide)

- State government focus on equity as a grounding principle

- Housing and substance use issues are of particular concern given their persistence and impact across the state requiring inter-agency collaboration, and data sharing

Cause of homelessness? It's not drugs or mental illness, researchers say

BY GARY WARTH | SAN DIEGO UNION-TRIBUNE

JULY 11, 2022 9:14 AM PT

Source: Los Angeles Times, July 11, 2022.

Connecting for Better Health
Advancing data sharing to improve the health of all Californians

Background on Medi-Cal ASCMI pilots

- California Department of Health Care Services (DHCS) (CA Medicaid Agency) selected three organizations to participate in the Authorization to Share Confidential Medi-Cal Information (ASCMI) pilot

- ASCMI consent form created as a model data sharing authorization form to support Medi-Cal's Enhanced Care Management and Community Supports initiatives that include health and social services organizations

- Primary applicants needed to be HIEs/CIEs, with county agencies (including behavioral health), and Medi-Cal Managed Care Plans and their contracted providers

- Project runs through August 2023

- Organizations and partners include
  - 2-1-1 San Diego, with San Diego County, Health Net, county health and human services agency, partner CBOs
  - Serving Communities Health Information Organization, with Santa Cruz County Health and Human Services Agency, Central California Alliance for Health, partner CBOs
  - Manifest MedEx, with San Joaquin County Health and Human Services, Health Plan of San Joaquin, Health Net, partner CBOs

More information on ASCMI pilots available on *DHCS website*
